

PAINT APPROVAL PROCESS

The Design Review Committee has worked very diligently this year to update the existing paint color scheme book. The intent was to incorporate a new current color palette into our present scheme of exterior colors, while maintaining the integrity of the neighborhood. There are currently two color scheme books available, the original color schemes and the new updated color scheme book.

When re-painting your home, you will need to make a choice from the original scheme book or the new book. These are the only color schemes that will be approved. There are approximately 60 color schemes to choose from. You will find the books at the KWAL store in Parker or the Sherwin Williams store in Castle Rock , or call Jacquie Perez at 303-805-9221. Arrangements can be made to borrow a color scheme book from Jacquie for a 24 hour maximum period.

As in the past, before painting can begin, you must submit a Design Review Request form (see tab below) and also paint 2' X 2' samples of each planned color on the front of your home. Do not begin repainting your home until you have received approval from the Design Review Committee.

If you have further questions or would like assistance in choosing new colors, please contact the Design Review Committee thru Jacquie Perez at 303-805-9221 and they will be happy to meet with you.
